*All specifications are average and subject to change without notice. Performance specifications are based on testing conducted at ALS in Perry, FL.		
Deployment Method	Hand Deployed	

Product Description
<p>The ALS2278CS Baffled Triple Chamber CS Expulsion Grenade a pyrotechnic smoke canister that is designed to deliver a high volume of irritant smoke upon initiation. Based on the M18 military design, the ALSG2278CS utilizes an M201A1 fuse and discharges a dense smoke cloud for approximately 20-30 seconds. This device is most effective and useful for indoor deployments when fire may be a threat from secondary fire hazards. It is recommended that the operator attend an ALS Less-Lethal Training Class prior to use of these devices.</p>
