

# DigiProcure

The Trusted Supply Chain Software for Owners & Contractors  
**Find, Order, Manage, Track Materials and Data**

Material pricing and availability has never been more volatile. **70% of construction projects finish late or over budget.** The number 1 reason projects miss their profit and schedule goals is supply chain and procurement issues. Supply chain is now a project risk that can't be ignored; DigiBuild helps owners and contractors improve their profits and project outcomes.

## Here are some of the ways our software can help you:

### Pre-Development/Construction

We provide visibility into material pricing, lead times, VE options, and data so ideal development and design choices are made.

### Contractor Management

We monitor procurement of subcontractor and lower tier suppliers to make sure material is ordered on time, within budget, and per spec.

### Workflow Management

Manage all project development and construction workflows such as contracts, field reports, payments, RFIs etc. Think digital owner's rep.

### Turnkey FF&E

We procure all FF&E needed and coordinate getting it to the jobsite. We can also install. Best price on the market and guaranteed accurate to spec.

## Customer Benefits:

1. Labor hours managing and procuring material reduced by **25%**
2. More supplier options, better supplier pricing saves **6-7 figures annually**
3. Reduce schedule misses by **90%**
4. Capture data to improve your processes
